

Mr. Paul Beebe owner of Beebe Knives has donated an 8" full tang fillet knife to the North Shore Steelhead Association in support of the 2010 Dinner and Auction.

This fillet knife was handcrafted by Paul Beebe of Upsala Ontario. The 8" blade is flat ground from 3/32" thickness 440-C stainless steel, is hardened to around Rockwell 58-59, and has a brushed satin finish. The blade gracefully tapers, both in width and thickness, from handle to tip, giving it a nice balance between stiffness and flexibility.

The full tang handle is crafted from turquoise-coloured canvas Micarta, and is shaped for comfort and control. This knife comes with one of Paul's handmade leather sheaths.

Visit Paul's website at www.beebeknives.com to read more about him or to find out more about his fine handmade knives.
