

Cook Engineering has donated a **2500 Series Shimano Symetre Reel**, and a **St Croix AVID AVS96MF2 Salmon / Steelhead Spinning Rod (9’- 6”)** and a **St Croix Rod Fishing Cap** to the North Shore Steelhead Association

The rod is an Avid series 9’ 6” medium power, fast action S3C graphite spinning rod. Built from high-modulus SCIII blanks with a sleek carbon pearl finish, offering superb sensitivity, extreme strength and durability, while still incredibly light weight. Includes Fuji® SKM reel seat/gun-smoke hoods and premium grade cork handles and trimmed out with Fuji’s Alconite® Concept Guide System. The reel is an 2500 series Symetre spinning reel. Included is a St. Croix hat.
