

The Canadian online fly fishing and fly tying store

Flymart.ca was founded to help promote and facilitate fly fishing in Canada. Our goal is to encourage new people, both young and old, into the sport. Flymart.ca is owned and operated by experienced fly fishers and tiers who are available and happy to answer any of your questions every day of the week.

Our Northern Ontario fly fishing store is nestled on one of most productive pools of the Spanish River in the town of Massey. Massey is easily accessible, as it is located along the Trans-Canada highway between Sault Ste Marie and Sudbury.

Owner, Scott Currie has donated an 11 foot, 6 inch, 6 weight Pieroway Element switch rod to the North Shore Steelhead Association in support of the 2011 Dinner and Auction valued at \$279.95

The **Pieroway Rod Company** is one of the only companies in Canada making fly rods and doing so with specialized carbon technology, which has resulted in an extremely thin-walled diameter blank.

Pieroway Element Switch

These sleek, metallic copper graphite rods are built to perform and perform they do. The Element Series is a medium-fast action blank with the power and capability to give you the extra distance when desired and are truly a pleasure to cast. Designed with high density cork handles assembled with detail and care, these rods feature polished nickel/silver reel seats with maple burl insert.
