

Mr. Paul Peterson from Peterson's Machine & Supply Inc. has donated a Redington CPX Switch rod and Rise Reel to the North Shore Steelhead Association, on the occasion of their 27th Anniversary Dinner and Auction.

The rod is a **Redington CPX switch rod** in an 8 weight, 11 foot 3 inch, 4 piece rod. This rod weighs only 6.2 oz. The reel is a **Redington Rise** in a Dark Charcoal finish, model 9/10 for larger line capacity

CPX rod Details:

- Fast action featuring the new Red Core Technology
- Glossy jet black blank finish and silver and slate colored thread wraps
- Pac-Bay TiCH stripping guides and hard chromed snake guides
- Premium Portuguese cork
- Woven graphite reel seat (Handle A) and machined hidden hook keepers on all saltwater models.
- Length and line weight designation on the ferrules for ease of identification and alignment dots make stringing up your rod a breeze
- Cordura rod tube and rod sock included
- Lifetime Warranty

RISE reel Details

This fully machined 6061 T6 aluminum Mid-arbor construction reel features a cork on Teflon center drag design, a Koyo one-way clutch and ceramic coated bearings for smoothness and durability. The Rise makes a great reel for both fresh and salt applications. The reel weighs 5.3 oz and has a spool capacity of 250 yards of 20lb test line.
