

Mr. Paul Peterson from Peterson's Machine & Supply Inc. has donated a pair of Redington Sonic –Pro Zip Waders (large) to the North Shore Steelhead Association, on the occasion of their 28th Anniversary Dinner and Auction.

The Sonic-Pro Zip Front Waders have five layers of fabric on the lower legs and seat for added durability, ergonomic hand warmer pockets lined with brushed micro fleece and laser cut exterior pockets with YKK water-resistant zippers. They also have custom designed features such as a 2" stretch wading belt with a Redington buckle, gravel guards with a molded lace hook and a hemostat clamp d-ring near the suspender attachment point. The Zip Front waders feature a full, center-front Riri 'Storm' Waterproof Zipper to allow getting in and out of the waders much easier.
