Riverside Outdoors has donated a Raven Matrix Special Edition to the North Shore Steelhead Association.

RAVEN® MATRIX SPECIAL EDITION

The Raven Matrix Special Edition Center Pin Reels offer the same ergonomic design and overall value as the standard Raven Matrix Center Pin Reels, but feature extensive machining and porting on the spool face for a lighter weight package. This lighter design helps to balance with today's increasingly lighter float and center pin rod offerings. These reels allow for the smoothest and most controlled float presentation possible thanks to the high performance twin shielded ball bearings. The Matrix Special Edition features possibly the best mix of value and performance found in any center pin reel on the market today. We offer the Raven Matrix Special Edition Center Pin Reels in Matte Silver.

Welcome to Riverside Outdoors! I started this business in 2004 because I was tired of having to order so much fishing equipment from out of town retailers, either because the prices were too high or no one carried or would special order product in for me! If you shop around the website I believe that you will find some of the lowest prices in Canada on many of the items! If you are looking for something and it's not on the website please give me a call as I am always looking for new items to carry or it may be something that one of my suppliers has in stock and I may be able to add it to our next order even if it's one item! Visit our site at:
