

Quality fishing rods custom built by master rod builder Cedric Knuckey and donated to the North Shore Steelhead Association.

SAGE Float Rod

The float rod is a 10'-6" 2 pc Sage GSH 3106L 3 power, center pin rod blank. This rod is made with a brown coloured blank and will be a sturdy 8 weight in order to handle heavy fish. The Guides are high frame single foot Fuji SIC. This rod features a Fuji graphite recessed reel seat and comes with two detachable rear grips so that you can easily switch between a 5" and a 9" butt. This rod comes with a protective bag and Sage Rod & Reel Tube

SAGE Spinning Rod

A Sage GSP 370-3 Gear Series 3 piece spinning rod equipped with Fuji SIC single foot spinning guides (same as last years brook trout rod) on a Moss Green rod blank. This rod comes with a protective bag and case.

Rod kit

This kit includes all the items necessary to build your own rod. The kit comes complete with a Cedar High Modulus IM6, TCF908 which is a 9'-0" 8 wt blank. It has the guides, grip, reel seat, fighting butt, thread, epoxy finish, guide spacing guide, bag and an aluminium rod tube.
